

## Forgotten Islands – Raja Ampat

### **expedition:: November 16-30, 2022 + add on**

---

We will spend 15 days/14 nights and begin our journey from Saumlaki, Tanibar Islands boarding the well-travelled luxury traditional phinisi schooner, MSY DIVE DAMAI II - [www.dive-damai.com](http://www.dive-damai.com) - known for their signature service and 4:1 guide ratio.

The Forgotten islands are part of the Maluku Tenggara which is a 1.000 km chain of archipelagos running from East Timor to Western Papua. Undeveloped, distant from population centers and far off any beaten path, these “Forgotten Islands” have been largely isolated from the rest of the world.

Diving in the Forgotten Islands brings you to incredibly rich waters and the area is typified by crystal clear water, deep walls and pinnacles, awesome overhangs and swim-throughs, beautiful pristine corals, huge barrel sponges and large schools of fish. Some of the islands in South Maluku, like Nils Desperandum and Terbang are famous for sightings of hammerhead sharks. Others have walls with colorful soft corals like at Dai and still others are current swept and full of reef fish like the channel at Lelar. Forgotten Islands liveaboard trips offer divers the opportunity to cruise around this chain of remote, beautiful islands known as the Ring of Fire before heading into Raja Ampat and finally ending in Sorong. Snorkelers and non-photographers are welcome!!!!

### **expedition organizer**

Join Tanya n Kevin for an extraordinary opportunity to dive one of Indonesia’s Hot Spots. They hope to enhance your trip with well over 20 years of dive & photographic experience. Pick their brain, look over their shoulders or just do your own thing. Tanya and Kevin’s goals are for everyone to get the most out of the experience, lots of focus will be on the identification and photography of the mind-boggling array of marine life to be discovered.

With this objective in mind, they are committed to finding the best of the best opportunities available... and have a lot of fun in the process.
